EMPLOYEE HEALTH AND IMPACT ON PERFORMANCE

In partnership with Dentons U.S. LLP and Kaiser Permanente Hawaii, the Chamber is presenting a Health Summit on February 13 focusing on new ways of thinking about employee health and productivity, and the impact on businesses. The summit is designed to help businesses create a culture of wellness and learn practical next steps to raise the bar for employee performance and engagement.

Featured luncheon keynote will be Dr. Howard B. Dean, former Governor of Vermont and head of the Democratic National Party. Governor Dean is a recognized thought leader in health care reform and is frequently called upon to navigate complicated regulations and political challenges in both the private and public sectors. His keynote will cover impact on performance.

As morning keynote, Gordon Ito, chief deputy insurance commissioner, will cover managing and controlling health care costs.

Other topics being covered by a wide variety of experts include: the business case for healthy employees, managing elder care with work demands, workplace strategies for self care and mental health.

BENEFITS OF MEMBERSHIP

“Island Distillers is a happy member of the Chamber, a Hawaii organization with great benefits for local producers. True to their mission, the Chamber, through the Hawaii Food Manufacturers Association, provides us with valuable support in producing authentic products that represent the genuine tastes and flavors of Hawaii. As Island Distillers continues our proud position as Oahu’s oldest distillery, producing Hawaii’s finest distilled spirits, we thank the Chamber in being a partner in our success.”
